

# Our **ALPHAGAZ™** Range

ALPHAGAZ™ 1 a dedicated range of pure gases for laboratory & analytical applications:

- Ease of use
- Product quality and integrity
- Traceability and repeatability
- Improved safety and ergonomics
- Dedicated, distinctive cylinders

Argon

Helium

Hydrogen

Nitrogen

Oxygen

Air

# Smartop™ for ALPHAGAZ™

An innovative and ergonomically designed product for laboratory and analysis applications

1. ON/OFF lever closes quickly in an emergency and provides unmistakable indication of valve status.
2. Fixed shock absorbing cap, with ergonomic design for ease of use.
3. Connect the pressure regulator, lift the lever and then ready for use.
4. View the pressure of the cylinder at a glance without the use of a regulator.
5. Built-in flow restriction provides protection against accidental gas line breach.
6. Ergonomic design makes it easy to handle and manoeuvre the cylinder.

7. Open valve design, hence minimises the build up of unwanted substances.
8. Built-in Residual Pressure Valve (RPV) prevents back flow contamination during use and storage.
9. Safety relief device.

200 Bar SMARTOP™ valve for the ALPHAGAZ™ range of pure gases:

ALPHAGAZ™ 1 Helium	BS341 No 3
ALPHAGAZ™ 1 Air	BS341 No 3
ALPHAGAZ™ 1 Nitrogen	BS341 No 3
ALPHAGAZ™ 1 Argon	BS341 No 3
ALPHAGAZ™ 1 Oxygen	BS341 No 3
ALPHAGAZ™ 1 Hydrogen	BS341 No 4*

*\* To be launched in 2012*

Suitable for use with the Air Liquide ALPHAGAZ™ range of pressure regulators.
