

# Food Grade Gas For Breweries

Put **quality** at the core of your craft.

# Quality assured. Expertise applied. Innovation delivered.

What is the **Air Liquide** difference?

## 1. Quality assured

Air Liquide are committed to maintaining the invaluable integrity of our customer's Food Grade Gas supply. Air Liquide deliver EIGA approved Food Grade Gas meeting ISBT requirements, subject to comprehensive testing and quality control procedures. HACCP methodology provides traceability across the supply chain.

## 2. Expertise applied

Air Liquide act as a partner to our customers and can provide as needed expert advice in all aspects of gas supply for the brewing, bottling and canning processes, including:

- Carbonation
- Dispensing
- Pipework
- Wort Oxygenation
- Purging
- Fermentation
- Dosing

## 3. Innovation delivered

An innovative approach to sustainability and focused, significant investment in a geographically diverse multisite Food Grade CO<sub>2</sub> network and supporting infrastructure in the UK. Our strategy enables our customer's to meet their operational and environmental objectives.

## Gas supply modes tailored to your requirements:

Cylinder through to Bulk capability

## Put quality at the core of your craft.

The Air Liquide difference is utilised by a prestigious portfolio of breweries nationwide.
